## Summary

I am currently a Software Developer in the United States Air Force stationed at Offutt AFB, NE. I am pursuing two degrees: an Associate of Computer Science at the Community College of the Air Force and a Bachelor of Computer Science at the Bellevue University. I am looking to separate the USAF around 2027 and currently have a TS/SCI Security Clearance. I enjoy developing applications and automation to make other individuals' jobs more efficient.

Security Clearance: SCI(DCID 1/14 ELIGIBLE)

Date of Investigation: 15 SEP 2021

## Experience

### Data Operator Supervisor (Senior Airman)

United States Air Force

May 2023 - Present (9 months)

### Data Operator (Airman First Class)

United States Air Force

Nov 2022 - May 2023 (7 months)

- A1C Coffey began leading his peers as Airman Leader Commander, training & mentoring 20 "Ropes" to lead nearly 300 Airmen while assigned to the 336 TRS. He has since emerged as a young leader within his career field, recognizing a lack of standardized training and designing the 20 IS' first structured Data Ops UGT program enabling timely upgrades using relevant material. This program has been used to train the unit's newest 1D7Z and shared across Offutt AFB's software teams as a gold standard. A1C Coffey also authored a 3-month version of the course fielded to the 75 ABW to train & prepare their 50 Knowledge Management Airmen for consolidation with the 1D7Z shred, facilitating an AF-level initiative. He is also a technical expert, as he led a 3-member team and programmed a search tool that matches database targets with AOC target lists, reducing research man-hours to minutes and allowing the 363 ISRG to create prioritized production plans for 5-year target revalidation. Additionally, he developed an automated method for network account creation, simplifying the process into a single form and cutting the timeline for newly arriving members by 90%.

- A1C Coffey crushed his 5-level UGT, completing all requirements 1 month ahead of his 2 peers. He also dedicated time learning Unix Script, JavaScript, and Python coding languages; as well as completed 4 college courses towards his Bachelor of Science degree in Information Technology, bolstering his programming skills.

- Finally, A1C Coffey is 1 of 3 squadron SAPR/SP instructors and 197 base-level instructor volunteers. He has trained 15 members on critical DoD guidance, propelling the unit to 100% completion in CY22 and fulfilling an ACC priority.

## **Software Development Operations Journeyman (Airman First Class)**

United States Air Force

Mar 2022 - Nov 2022 (9 months)

- Spearheaded new workspace setup team. Terminated over 376 fiber heads though out 15hrs expediting workspace configuration by 66%.
- Headed programming training, authored 8 web development courses for 164 non cyber airmen. Increased squadron level awareness and knowledge of mission.
- Sole developed innovation team project tracker. Tracked status of 26 projects' tasks improving leadership's vision of wing-level programs.
- Head Point of Contact for squadron Confluence/Jira. Reinvigorated UI/UX of webpage, centralizing info for 164 members for 13 policies & programs.
- Fixed 3 critical program errors, assuring timely application deployment. Eliminated package review bias & delivered rapid board feedback to commander.

## **Software Development Operations Apprentice (Airman First Class)**

United States Air Force

Dec 2021 - Mar 2022 (4 months)

- Studied Software Development getting awarded my 5 level.
- Resident Advisor for Kisling Hall supporting Offutt AFB ADLs.

## **Computer Systems Programming Helper (Airman Basic)**

United States Air Force

Jul 2021 - Dec 2021 (6 months)

- Studied Computer System Programming at Keesler AFB being award my 3 skill level.
- Numerous hours of around the clock assistance and support to the 336th MTF, 81st TRNG, and Keesler AFB. Assisted Military Training Leaders in the management of over hundreds of Airmen, fostered esprit de corps, and led fellow Airmen by example. Became a vital part of the 336th TRN SQ as an Airman Leader achieving the level of Red Rope. Dedication of countless hours was indicative to the continued success of the 336th TRN SQ.
- Trained and mentored over 20 Airman Leaders during my time as Airman Leader Commander at the 336th TRN SQ, Keesler AFB.

## **Basic Enlisted Airman (Airman Basic)**

United States Air Force

Jun 2021 - Jul 2021 (2 months)

- Graduated Basic Military Training

## **Education**

## **Bellevue University**

Bachelor's degree, Computer Science

Jan 2024 - Jun 2027

## **Community College of the Air Force**

Associate's, Computer Science

Jun 2021 - Jun 2027

## **Skills**

Python (Programming Language) • Web Development • Database Administration • CLI • SQL • C# • Visual Basic for Applications (VBA) • Amazon Web Services (AWS) • Project Management • Leadership

## **Honors & Awards**

### **Senior Airman "Below the Zone" - Lt Col Jeffrey Durham**

Mar 2023

Below the zone (BTZ) is a competitive early promotion program offered to enlisted U.S. Air Force personnel in the grade of Airman First Class/E-3. This early promotion opportunity is restricted to exceptional Airmen who stand out from their peers and perform duties at a level above their current rank. Selection for this award is reserved for the top qualified individuals.

### **Outstanding Data Operations Airman - Col John Thorne**

Sep 2023

363d ISR Wing FY23 Information Dominance Award
